Subject: West Lake Landfill

Ms. McCarthy,

Please see the attached article from the St. Louis Post-Dispatch regarding the Bridgeton/West Lake landfill. I'm sure you are familiar with this Superfund site, and it needs a sense of urgency. It is quickly becoming an emergency situation.

Please do not refer this email to Karl Brooks, as he and his staff at Region 7 have been dragging their feet, and do not seem to care at all about those of us who are subjected to this burning, toxic landfill.

I live in Spanish Village subdivision, (Ground Zero), which is 1/2 mile from this landfill. I fear for my family's safety, and ask that you give this your immediate attention.

Thank you,
Kathy Bell
